YORKSHIRE SCULPTURE PARK

WARM WEATHER UPDATE!

Dear parents,

We have a few updates for the year 5 trip, regarding the warm weather.

The Yorkshire Sculpture Park have put a few things in place to help keep everyone safe in the heat.

Children are to bring a named, refillable water bottle, they have water stations situated around the park so children will be encouraged to stay hydrated. Please make sure everything else for their packed lunch is disposable. Their lunches will be kept in the air-conditioned lunch room we have booked. We have this room for the whole day.

All outdoor activities and workshops have a back up plan and will be taken into air-conditioned rooms if and when needed, also the walking tour around the park has been shortened and will be mainly in shaded areas.

When groups go out into the Park, they will be supplying trollies to carry water bottle, sun cream etc so these don't have to be carried.

They will have wet flannels on hand if anyone attending feels faint or overheats, staff are first aid trained.

The coach is air-conditioned and will be on standby if staff feel it is too hot and need to come back earlier than planned.

Children must bring a hat & apply sun cream before school. If they are bringing extra sun cream, please ensure it is named. Children can wear summer uniform (no ties) or PE kit.

Kind regards,

Miss Sharpe

Year 5 Teacher
